Branch drain venting

- The main drain vent must be an open vent.
- The main drain vent must be 80 mm min.
- Every drain branch that exceeds 10 m must be vented.
- The drain vent must be downstream from the head of the drain but not more than 10 m from it.

Diagram notes:
- Branch drain vents must be sized correctly.
- Access point (AP)
- Head of drain
- Main sewer
- Site boundary
